RAJAVIGNESH SA

8220215073 rajavigneshs2020@gmail.com Rajavignesh SA Coimbatore, Tamil Nadu

OBJECTIVE

Motivated and detail-oriented B.Tech IT student with hands-on experience in developing software applications and AI-based solutions. Skilled in Java, Python, database management, and object-oriented programming, with a strong interest in building real-world, scalable systems. Seeking an opportunity to contribute to innovative projects while enhancing technical and problem-solving skills

EDUCATION CREDENTIALS

Bachelor of Technology in Information Technology, CGPA 8.823 (till Sem 3) **2024-2028**
Adithya Institute of Technology, Coimbatore

HSC 79.16% PSG Sarvajana Higher Secondary School, Coimbatore **2022-2023**

SSLC 84.5% PSG Sarvajana Higher Secondary School, Coimbatore **2020-2021**

TECHNICAL SKILLS

- Java Fundamentals
- OOPs in Java
- SQL
- Python Fundamentals
- Spring Boot
- AI Tools

SOFT SKILLS

- Communication
- Leadership
- Problem Solving
- Team work
- Adaptability

PROJECT

STUDENT GRADE MANAGAEMENT SYSTEM USING JAVA
designed and developed a student Grade management system using Java, implementing OOP concepts to manage and evaluate student performance.

USER AUTHENTICATION MANAGEMENT SYSTEM & CHAT APPLICATION
designed and developed a User Authentication & Chat Bot Application with secure login and real time messaging using Python & OOP concept.

FACE DETECTION SYSTEM USING PYTHON & OPEN CV
Designed and developed a Face Detection System using Python and OpenCV, implementing basic computer vision techniques for real time face detection.

ONLINE COURSE RESERVATION SYSTEM USING JAVA & DB
Designed and developed an Online Course Reservation System with backend & database integration for managing course entrollment.

PATENT PUBLISH

NEXT GEN EGC: MEDICAL IMAGE BASED CANCER TYPE PREDICTION USING AI - April 10,2026
Presented a conceptual framework for cancer type prediction using AI-Based medical image analysis. discussed methology, potential models & future implementation scope.

INTERNSHIP

Java Developer Intern **April 30/2026 - May30/2026**
CodeVeda Technologies, Maharastra.
Developed Java based applications using OOP Programming concepts.
Worked on backend logics, debugging, API integration, JBDC & Springboot basics.

AI Driven Software Developer Intern **April 29/2026 - May 28/2026**
Pantech Solutions, Coimbatore.
Worked on AI-integrated software development projects & application features.
Gained Hands-on experience in progrmming, debugging & software development workflow

ACHIVEMENTS & CERTIFICATES

- Participated in the International Conference on Advanced Innovation in Technologies conducted at Arifa Institute of Technology.
- Secured 2nd Place and received the Best Paper Award at National Conference on Digital Technologies & Smart Systems (NC DIGITECHS 2K25) organized by Akshaya College of Engineering & Technology.
- Participated in the International Conference on Understanding India's Foreign Policy and its Strategic Implications held at Vivekanandha Institute of Information and Management Studies.
- Participated in Smart India Hackathon 2025 at Adithya Institute of Technology.
- Participated and presented the paper "Self-Healing Microservices Architecture using AI-Driven Failure Prediction & Auto Recovery" at the 3rd International Conference on Innovative Research in Engineering Science (ICIRES-2K26) conducted by Christ The King Engineering College.
- Shortlisted for National Level IPR Innovation Challenge 2026 by RAALTECH SOLUTION.

CO-CURRICULAR & EXTRA CURRICULAR ACTIVITES

- "Leveraging Machine Learning and Natural Language Processing for Automated Fake News Detection: A Data Mining Approach" **ISBN: 978-82-986573-4-3 | Mar 2025**
- "AI-Powered Real-Time Stress Detection & Emotional Analysis using Python" **ISBN: 978-81-986573-4-3 | Mar 2025**
- "Cybersecurity – Fraud Detection in Financial Transactions" **ISBN: 978-81-984398-8-8 | Apr 2025**
- "Design of Version Controlled Data Structures in Python for UNDO/REDO Functionality" **ISBN: 978-81-991175-3-2 | Aug 2025**
